## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-12 and 14-25, drawn to an image transmitting apparatus and method, classified in class 709, subclass 249.
  - II. Claims 13 and 26, drawn to an image receiving apparatus and method, classified in class 709, subclass 249.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I (an image transmitting apparatus and method) has separate utility such as it is used to transmit image data either via a mail server or the IP address of the receiving apparatus. While Invention II (an image receiving apparatus and method) is used to receive image data. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for Group I (apparatuses and methods that transmit image data) is not required for Group II (apparatuses and methods that receive image data), restriction for examination purposes as indicated is proper.

Art Unit: 2143

4. A telephone conversation was held with Greenblum & Bernstein, P.L.C. on Wednesday, October 16, 2002 at 12:30 pm to request an oral election of a single invention for examination as set forth in the above restriction requirement, but did not result in the election of a single invention. Therefore, it is required that the applicant reply with an election of a single invention even though the requirement is traversed (37 CFR 1.143), and at that time the non-elected claims will be withdrawn from consideration. MPEP§821.01-821.03

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
